EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification, page 6, after line 3, ---Fig. 10 is a side sectional view of the support element.--- has been inserted as new line 4.

Claim 22, line 12, "enageable" has been changed to ---removably engaged---.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest a furniture support system comprising a support post having a first locating formation comprising a channel that extends longitudinally along at least a part of the length of the support post, the channel having a longitudinal axis, a pair of lips defining a mouth, and a channel body located behind the mouth, the mouth being narrower than the channel body, a support element having a second locating formation that is complementary to the channel and removably engaged therewith, the first and second locating formations being constructed and arranged for sliding movement in the longitudinal direction, such that the position of the support element relative to the support post is continuously adjustable, and a lock adapted to fix the position of the support element relative to the support post in a load bearing manner, the second locating formation has upper and lower ends and **the lock is**

Art Unit: 3637

located towards the lower end and includes a screw that is constructed and arranged for compressive engagement with the channel body on an inner face opposite the mouth causing the second locating formation to adjust its orientation within the channel into a locking position in which the second locating formation is inclined to the longitudinal axis of the channel such that the lower end is pushed against an inner face of the lips and the upper end engages the inner face of the channel body opposite the mouth, so as to fix the position of the support element by increased friction between the support element and the support post.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to José V. Chen whose telephone number is (571)272-6865. The examiner can normally be reached on m-f,m-th 5:30am-3:00pm.
